

## **UAB "NOJUS" COMPANY OFFERS SEEDS AND PLANTING MATERIAL FOR 2012 SPRING SEASON!**

The company successfully expands its activity in Lithuania, represents the biggest producers of seeds and bulbous flowers in East Europe.

Our company is one of the top leaders in the market of seeds and bulbous flowers intended for amateurs.

The core business is to develop and produce complete retail concepts for organisations such as discounters, supermarkets and home improvement centres.

Our large product assortment includes numerous flower bulbs, perennials, various packages of seed and planting onions.

In every season we could provide our clients for new and qualified products.

Our prices are cut very fine.

If you are interesting our company can make a special pricelist for you.

Would you like to know what Nojus has to offer or do you have any questions and/or comment, please contact:
